2

new investments

“You will also learn about Guavay, our newest investment, which is advancing agro-input solutions for farmers in Tanzania. Lastly, we highlight the positive impact created by BeerShéba in Senegal, whose commercial activities in meat and plant processing continue to strengthen local communities.”

60'000+
trees planted
by RougeCongo

“In 2024, RougeCongo made significant strides in its agroforestry and support programs. The nursery successfully sold and planted 227 hectares of palm seedlings.”

450+
direct and
indirect jobs
supported

**AlphaSeeds' investments have led to the
creation and support of nearly 500 direct
and indirect jobs.**

A close-up, black and white photograph of a large pile of sunflower seeds. The seeds are scattered across the entire frame, creating a dense, textured background. They are mostly oriented horizontally, with some showing the characteristic striped pattern of the hull.
